

Companies who required vaccination, testing and or masking for their employees

The idea for this list was inspired by

<https://familyfirst.org.nz/2024/06/04/media-release-new-website-showcases-woke-businesses/>

According to Employment NZ:

*“Reasons for requiring vaccination other than health and safety are unlikely to be sufficient, for example, requiring vaccination to promote your workplace as being fully vaccinated. This would amount to requiring workers to undergo a form of medical treatment solely for a **marketing** benefit.”*
